System Requirements

Mac OS X 10.4 or later

## EasyEnvelopes

### About EasyEnvelopes

Quickly print a one-off envelope, or utilize its tight integration with Address Book which allows you to quickly find a person's address to print an envelope for. It handles USPS bar codes for both five and nine digit bar codes, and boasts many time-saving niceties.

EasyEnvelopes works with any country's addressing format, and is fully international-friendly and localizable. It lets you control the size of your envelope, the formatting for the return address and mailing address, and much more. Print envelopes the quick and easy way with EasyEnvelopes!

### What's New in this Version

- Mac OS X Leopard 10.5 WWDC Release compatibility
- uses new first-class postage stamp to future-proof the artwork (at least until the USPS does away with first-class postage)
- fixes an issue with custom paper-size settings forgetting the associated printer
- Various other bug fixes and enhancements
