**Abble Dabble:** The revolution of crossword games! Scrabble fans, and anyone who enjoys a good word game should definitely check out Coresoft's Abble Dabble. Raising the word game bar, Abble Dabble presents an array of settings and features that breathes new life into the characteristic letter tile game, while still retaining the familiarity of a classic.

**Koi Pond :** Clear your mind. Imagine gazing into a pond of crystal clear water. Picture bright, playful koi swimming through its shallow depths. So close. . . . Can you touch them? Run your fingers across the cool surface of the pond. Water ripples away from your touch.

The koi, disturbed, dart away.  
Only to quickly forget and swim close to you once more. . . .

**HBO GO:** "HBO subscribers can watch HBO on-demand through their MVPD (multichannel video programming distributor) provider web interface (DishOnline.com, say), or through the HBO Go dedicated application," he wrote. "Over time, both the DishOnline application and the HBO Go application, amongst others, will likely get built into smart TVs or be available in smart TV app stores."

Gail & George Krasean

Two favorite recipe apps are Epicurious and Allrecipes. For additional news sites try Huff post and CNN. Both George and I are addicted to solitaire and I also downloaded iBridge Baron. Not real happy with the bridge site. It seems to move really fast and not as good as the same program that I have on my computer.

Joanne Harris

My absolute favorite iPad app is "Star Walk". It is awesome: view everything in space: constellations (with pictures super-imposed), planets, satellites (shown as they ARE-- from Hubble, Int'l Space Station & all others), shows things above & BELOW the horizon, day & night & more. The best \$2.99 I have ever spent!

Also: "Peterson" (free)--Feeder Birds of North America (160 species), "ABC Player"--watch some ABC Tv shows, "TNT"--view TV shows, "PBS"--view TV shows, "Classical"--(Free)--Classical Music (selected parts of 120 selections) and "Classical" \$4.99 upgrade to FULL Versions of selections, "TuneIn Radio" (free)--All types of Radio formats.

I use Goodreader all the time. I save knitting patterns that I have downloaded in PDF format. Then as I knit, I can make notations on the instructions, underline where I am, note changes I make in the pattern, etc.
