

**The Apple Menu is
located at the left end
of the Menu Bar at the
top of the Screen...**

The Apple Menu

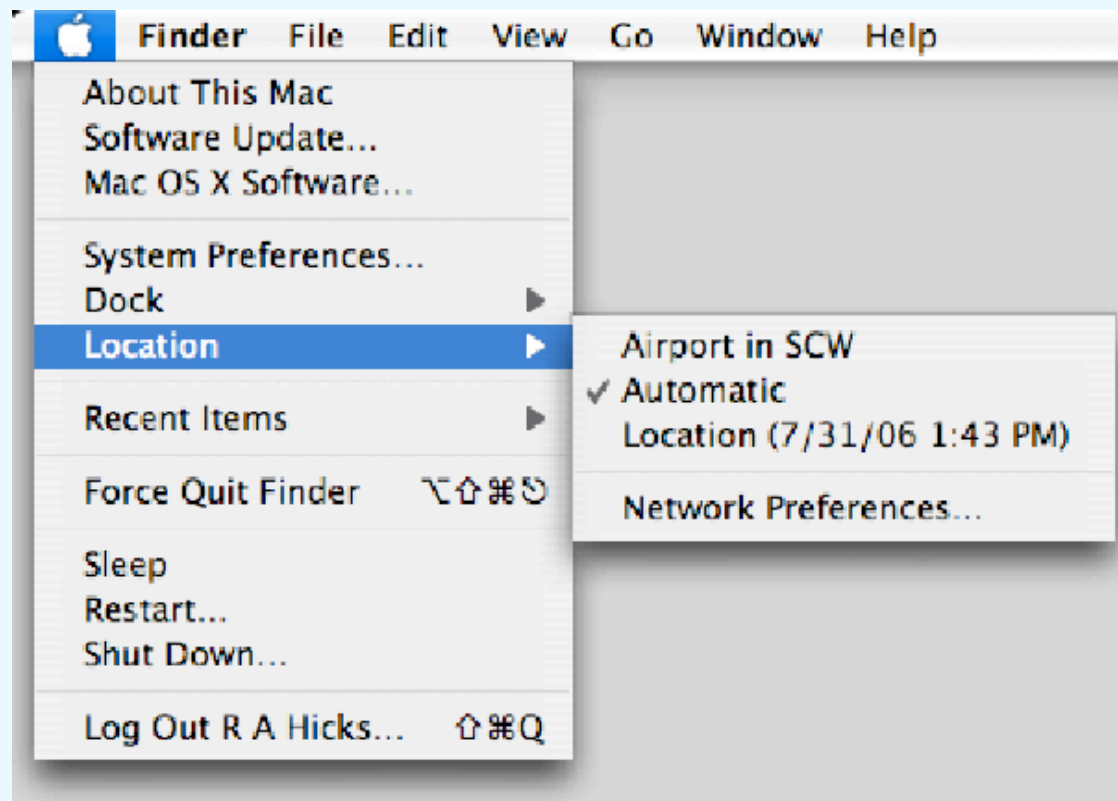

This is the location of many important items that require instant access.

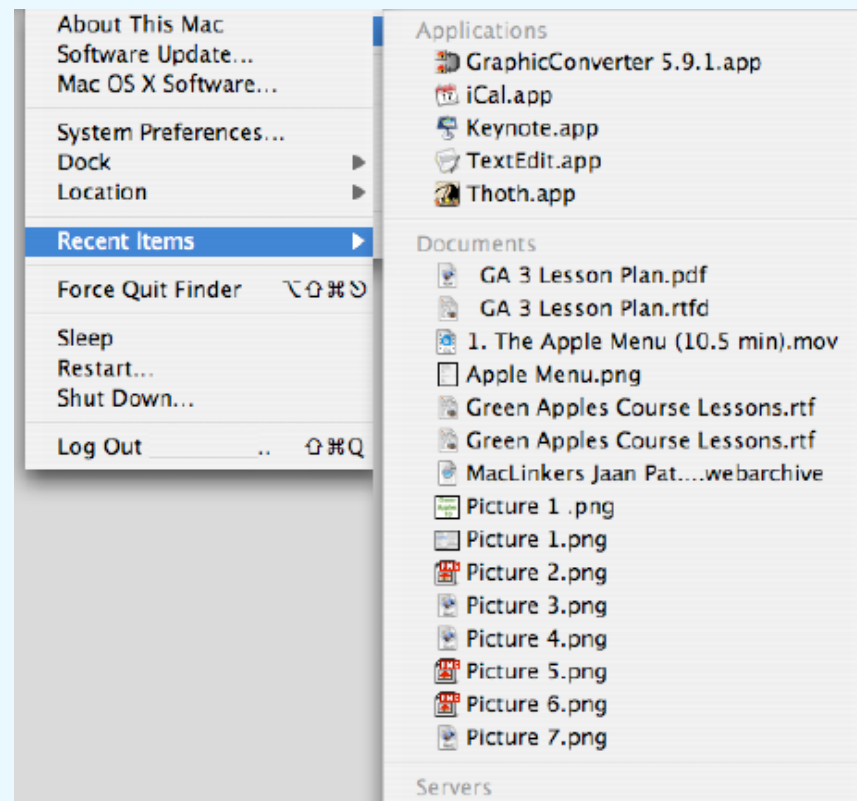

The Dock Menu Item provides access to the tools that control the way the Dock looks and works.

The Location Item provides Access to Airport and other Network Settings.

The Recent Items item allows you to go back and reopen a recently opened Application, or Document

This menu also provides access to the following actions:

System Preferences

Force Quit Finder

Sleep

Restart....

Shut Down...

Log Out User Name ...
